

**Custom Electronics, Inc. is proud to announce that we are now;**

## ***AS9100 / ISO 9001:2000 CERTIFIED***

### **CEI's Focus on Quality**

Our dedication to quality is a prime reason for our success in the high voltage industry. The AS9100 certification is just the latest step in our ongoing commitment to ensure the highest quality products reach our customers. [Click here](#) to print a copy of our AS9100 certification.

Since 1964, Custom Electronics, Inc. has been a globally recognized manufacturer of top quality high voltage Mica paper capacitors and tailor made assemblies. Our goal to maintain the utmost in Quality Assurance, has given CEI the reputation of reliability, quality and customer satisfaction. Keeping in step with the changing standards of the high-tech electronics industry, is just one of the examples of how Custom Electronics, Inc. has remained a top competitor in the custom made capacitor industry.

Determined to be the best in our class, CEI recently completed training of our soldering personnel to be J-STD certified solders.

Along side our most recent accomplishments, all of our managers and directors have been issued a Certificate of Completion, by Associated Global Systems, for training regarding ITAR Compliancy. Since late '07, Custom Electronics, Inc., has taken great strides in its exporting practices by becoming ITAR compliant. This standard, dictated by the Directorate of Defense Trade Controls, helps protect our country as well as add one more level of security and quality to our products as they leave our borders.

As the complexities of the High-Tech Electronics Manufacturing Market continue to change, Custom Electronics, Inc. will remain at the forefront to meet those challenges head on.

Custom Electronics, Inc.; offering Reliability, Quality and Customer Satisfaction for over 45 years.
